

# 9 Day Mozambique Sun, Sea and Diving Safari

Extend this tour to include Kruger National Park

Mozambique always stirs memories of tropical paradise, warm waters, sun kissed beaches that stretch on forever. Fresh coconuts and cocktails to finish your day and fresh seafood from your lodge every evening. As it well should with exclamation marks at the end. The diving – snorkelling as well as Scuba - is prolific and this area of the coast holds special magic in the form of the Whale Shark and its routing along this coastline. Manta Rays are regular arrivals and offer unparalleled photographic opportunities in these clear waters. Diving the reefs of the area soaking up the lazy Island Style attitude are all part of the experience. However the towns of Inhambane and Vilankulous also offer a fascinating glimpse into Portuguese colonial history and the story of a remarkable trading country that has gone to ashes but is presently emerging stronger and with more promise than ever before. Love life, love the outdoors and the no rush mentality...Mozambique is for you. Remember that this tour slots in perfectly with a 5 day Kruger National Park extension to start with followed by your beach downtime.

One of our consultants are waiting to assist you with any questions and a complete itinerary for this tour – feel free to contact us:
